#### No. of people

#### PRICE

#### INCLUDED IN PRICE

- private transportation from Warsaw
- English-speaking tour leader for the whole tour
- local guides in Ciechanowiec & Herbal Corner
- entrance fees including herbal workshops
- typical countryside lunch (soup, main dish, dessert, water)
- all taxes

First you will see the **Agricultural Museum**, located in the small town Ciechanowiec. This place, situated in a very picturesque scenery, is one of the most interesting Polish (partially open-air) museums, where you will learn about wooden architecture, discover secrets of agricultural technologies of the past times and find out about traditional animal breeding. After the visit we will take you to the unique **Herbal Corner** where traditional countryside lunch will be served. After the lunch you will get the chance to visit a small botanical garden with typical Polish herbs and then, based on the herbs, you will make your own, traditional herbal tincture! Last point of this tour will be a short stop by **Grabarka**, a spiritual centre of the Polish Orthodox Church. You will see the famous hill with wooden crosses and learn some facts about the Orthodox confession, popular in eastern parts of Poland.
